Email Blocking

IT Status

We are aware of issues with mail delivery failures associated with blocked email lists by other organizations and universities, and we are working diligently to solve this complex problem. If you are unable to send email to one of these parties you may need to use a non-VT email address for those communications until we reach a resolution. The length of time vt.edu email addresses will be blocked varies and it may take several weeks before emails begin to go through normally. We appreciate your patience as we work to resolve this issue and will be providing more updates as they become available.
